Sparkle your charms

1. Push

Select a sticky charm shape to decorate. Gently push it out of the charm sheet and place onto the grippy mat.

2. Peel

Use your charm picker to peel off the first layer of choice to reveal a sticky surface.

TIP: - Slightly bend the sticker so the edges are easier to pick.

3. Rub

Choose a sparkle sheet and place it over the sticky charm, shiny side up and dull side down. Use the end of the fairy wand to rub over the surface.

TIPS: - Make sure all foil sheets are separated.
- Press gently when applying the foil, to avoid wrinkling.
- Take care not to rub the foil too much once it is transferred to the charm.
- Add little shapes by placing a stencil over the charm in step 3 and rub the foil as usual. Repeat step 3 again, to foil around the shapes.

4. Reveal

Gently peel off the sparkle sheet to reveal your sparkling charm. Repeat steps 2-4 for each section of your charm.

TIP: - For more sparkle, add some sticky gems to your charm!

5. Display

Remove the sticky backing from the sparkling charm and stick to your cards and favourite things.

TIP: - Seal your secret message with a sparkling charm on the back of the envelope.
