FlowerLite is the sweetest and kindest of all fairies. She is pretty, loves fun and can make a game out of anything.

StarLite likes to make magic and keep secrets! She lights up the stars every night to bring you sweet dreams.

SunLite is bright and shining like the sun and always lights up the room with her smile. She is happy, cheerful and energetic.

Meet the Fairies!

Using your Design Studio

Use the clip to help hold your charms while you peel and sparkle them!

Decorate & Display

Use the charms labelled A, B, C and D to decorate your clip.

Sparkle your charms

1. Push

Select a sticky charm shape to decorate. Gently push it out of the charm sheet.

TIPS: • Slightly bend the sticker so the edges are easier to pick.
• Large fairy shaped charms- Only peel off the white areas on the wings.

2. Peel

Use your charm picker to peel off the first layer of choice to reveal a sticky surface.

3. Roll

Choose a sparkle sheet and place it over the sticky charm, shiny side up and dull side down. Roll the charm roller several times over the surface.

TIPS: • Make sure all foil sheets are separated.
• Press gently when applying the foil, to avoid wrinkling.
• Take care not to rub the foil too much once it is transferred to the charm.
• Add little shapes by placing a stencil over the charm in step 3 and roll the foil as usual.
Repeat step 3 again, to foil around the stenciled shapes.

4. Reveal

Gently peel off the sparkle sheet to reveal your sparkling charm. Repeat steps 2-4 for each section of your charm.

TIP: • For more sparkle, add some sticky gems to your charms!

5. Display

Remove the sticky backing from the sparkling charm and stick to your favourite things.

TIP: • When using the fairy stands do not remove the back layer off the charms.
