

Winning cards

In the event that no acceptable answer is called by any player on a turn, play continues with the next card and category.

The dealer reads the category from the top card of the deck and moves the card on top of the previously played card. The first player to call out an acceptable answer wins both cards in the stack. Repeat as needed.

Play continues until all but the last card has been won.

End of the game

The last card in the deck can be used as the first category for the next round or will not be played if it is the end of the game.

The winner

The player with the most cards at the end of the game is the winner.
