

# Night Nocs Day or Night Binoculars

Requires two AAA (LR03) batteries, not included.

Important: Please save this instruction sheet. It contains valuable product information.

### How to play with your SpyX Night Nocs

#### TO USE THE SpyX Night 'Nocs as Daytime Binoculars

1. Look through the **EYEPIECES** and rotate the **FOCUS WHEEL** until the image becomes sharp.

#### To use the SpyX Night 'Nocs at night (Fig 1.)

- 1. Slide the switch that is on the left to turn on the Night Vision light
- 2. If you want to go super stealth, slide the switch on the right side which will engage the Red "Stealth" filter so you can avoid detection while still spying at night. You can switch it back to White LED light at any time by moving the switch back to its original position.

#### **BATTERY SAFETY INFORMATION**

- · Only adults should install and replace batteries.
- · Do not recharge non-rechargeable batteries.
- · Remove dead or exhausted batteries.
- · Insert batteries correctly. Match positive and negative signs.
- $\cdot$  The supply terminals are not to be short circuited.
- · Do not use rechargeable batteries.
